

Submission of the applications of the Ukrainian candidates for the mobility at Croatian higher education institutions through CEEPUS programme

Although Ukraine isn't a member country of the Central European Exchange Programme for University Studies – CEEPUS (www.ceepus.info), during the meeting on 9 March 2022 Senior Officials of the member countries decided unanimously to enable the participation of Ukrainian academics (students and teachers), using leftover scholarship months and funds from the current academic year.

On 21 March 2022 Ministry of Science and Education of the Republic of Croatia gave a consent to make the extension of CEEPUS to Ukrainian academics possible also at the Croatian national level and to enable their applications at Croatian higher education institutions. However, Croatian leftover funds from this academic year are at time being rather limited. In case of further cancellations of already awarded applications during the regular application rounds we will award additional applications from Ukraine.

Please, find below the information about the application process in the form of Q&A.

Who can participate?

Students of all study levels and teaching staff, with Ukrainian citizenship.

The duration of the mobility period?

From 3 to 5 months at maximum, or by the end of the current academic year at the latest. Kindly note that the academic year in Croatia lasts by the end of September of 2022.

What does CEEPUS grant at Croatian institution include?

CEEPUS grants at Croatian institutions include financial allowance and accommodation in student dormitory which is free of charge for the grant holders. If accommodation at student dormitory is currently not available, grant holders are entitled to additional funds for accommodation allowance. The grants for students of all study level include student card for subsidised meals. The grant amounts and other conditions are published at www.ceepus.info under „Contact“.

How to apply?
